SUMMARY

I'm a passionate Sound Engineer, Sound Designer, and Music Composer with hands-on experience in creating impactful audio for various media. I have worked on numerous short films as both a music composer and sound designer, crafting immersive soundscapes that elevate storytelling and emotional depth. Currently pursuing a Master's in Visual Communication, I bring a strong blend of technical expertise, creativity, and narrative understanding to every project. My goal is to deliver high-quality sound design and music that enhance visual storytelling and captivate audiences.
